ANGKOR WAT

Best at Angkor. Largest, finest
and best preserved of the 72 temples.
It is a physical representation of
Hindu Cosmology. The 5 central
towers represent the peaks of
Mount Meru, the abode
of the Hindu gods and center of
the Universe. The outer wall
represents the mountains at

the edge of the world, and the most
significant the ocean beyond. Building
this high tower, 5,000 miles
wide 5,000 miles high, supporting
them.
